## MEMORANDUM FOR THE RECORD

SUBJECT: TRW Buildings W1 and W2

58 - 1

1. At the request of [redacted] OIT, I contacted Mr. Peter Inman of TRW (734-6206) to discuss the physical characteristics of the TRW Buildings in the Westgate Complex. The purpose of the inquiry was to make a comparison between TRW and [redacted] for the purpose of determining which is most suitable (economically and technically) to house a 50,000 square foot computer center and 150,000 - 200,000 square feet of space for programmers and analysts.

STAT

2. Mr. Inman stated that TRW will not be moving personnel from W1 and W2 to their new corporate headquarters complex. TRW has a 50 year lease (expires 2022) with Westgate. The terms of this lease are so favorable that TRW has made a corporate decision to remain in the building.

STAT

3. Based on the above information we did not engage in any technical discussions regarding the physical characteristics of the TRW Building.
